Your business others-don't make the mistake of thinking it is.

The average non-advertising manufacturer will solemnly assert that his particular goods cannot be profitably advertised.

He admits that advertising made other men wealthy, but ensists that it doesn't suit his case at all. This is wrongutterly wrong.

There is no article manufactured that cannot be profitably advertised, provided it is an article which meets a public need. Even the commonest articles of daily use, such as flour, and soap, and sugar, and salt, can be, and are, profitably advertised by brand.

People seem to like to buy things by a trade-mark name, and when they commence to do so they keep on indefinitely. An article which people can use to advantage can be advertised to advantage, and it makes no difference what that article is.

Advertising should be used liberally when business is poor in order to stimulate more business, and it should be used liberally when business is good as an insurance against dull times in the future.

Advertising space in THE LADIES' HOME JOURNAL and THE SATURDAY EVENING POST is particularly valuable because these publications are bought and read by a great multitude of people who buy advertised goods.

THE JOURNAL reaches 1,000,000 homes-THE POST 700,000; with an average of five readers in each home, this means a total of 8,500,000.

Congressman Hepburn of the Lowe Gov gation was greatly opposed to the Gov ernment making the loan to the Exposi extrang speech on the erament making the loan to the Exposition, and made a strong speech on the
floor against the measure. Upon the request of Congressman James A. Tawney
of Minnesota, who was in charge of the
bill in the House of Representatives, Congressman Smith answered his colleague
from the Haweye State. It was declared
to be an able argument in favor of the

COLLEGE BOYS ELATED OVER FOOTBALL GAME.

So rejoiced were former students of the Kentucky State College at the Fair at the victory of their alma mater over the Kentucky State University in the game of

tucky State University in the game of football Thanksgiving Day that they decorated the model of the university with black cloth. The model is of plaster of paris and stands in the Kentucky building.

The football game resulted in a score of 22 to 4 in favor of the college, and their first act yesterday morning, besides decorating the model in crepe, was to have a large sign painted with the score thereon in big letters. The college boys will go further, and to-day will cut the black cloth into strips and each member of the defeated ball team will get a plece of it.

Government Will Allow Showman to Take Filipinos to Metropolis If He Gives Bond.

According to a telegram from Washingon, D. C., last night, it is now a question whether the Philippine Constabulary and band will go to New York before returning to Manila.

Colonel Clarence R. Edwards of the Insular Bureau said to The Republic that the question is held in abeyance. The prooned Eastern trip will fall through unless Mr. DeWagstaff, who made the proposal, signs a \$25,000 bond drawn up by the Colonel to secure the expenses and promised remuneration of the band and Constabulary. If DeWagstaff shall not have signed the

bond in the meantime, the Constabulary

and band will depart to morrow night for Frisco, en route to the Philippines.
Colone. Edwards said that he told be-Wagstaff over the long-distance telephone that the bond must be signed or the Filipinos would not be allowed to go to New York. The Colonel explained that it is his duty to secure the Filipinos and the Government against possible loss. While he believes the famous band and Constabuary would draw a big crowd in New York he does not feel justified in permitting them to go there without the security of a first-class bond.
Colonel Edwards said that he had a large number of requests for the Filipino Band and should like to have them remain in the United States for a considerable period. He is proud of them, and should like to give those who did not go to the World's Fair an opportunity to see and hear them. Most of the Filipinos, however, are married and desire to return to their homes at the close of the Exposition. and band will depart to-morrow night for

tion.

About sixteen members of the band whose terms expired sometime ago, were whose terms expired sometime ago, were persuaded to remain thirty days longer that the band might not be disrupted. They consented only on condition that all of the band and Constabulary would re-

main.

DeWagstaff is arranging an aggregation of World's Fair attractions to be exhibited at Madison Square Garden, and wishes to add the Filipinos to his show. If he compiles with the requirements of the Insular Bureau the Filipinos will go to New York to New York.

In that event, DeWagstaff will agree to pay the expenses of the men-about 300-during the trip to and from St. Louis and while in New York. Besides, he will pay them about 3,000.

Should the Constabulary go to New York, after its engagement there, it will proceed to Sun Francisco by way of St. Louis, en route for home. The Philippine Scouts will remain at St. Louis until January 1. They also, will return to the far East by way of San Francisco. to New York
